

Waldo's Weedkiller

Your group is responsible for applying Waldo's Weedkiller to a designated area of your school. You have 30 minutes to:

1. Safely and accurately mix the weedkiller
2. Apply the weedkiller mixture to the designated area in your school
3. Clean up in a manner that complies with the instructions on the label as well as any additional instructions provided by your teacher.

In order to do this task, group members will be allocated one of three specific roles:

Safety Officer: ensures all safety directions are followed throughout the mixing and application of the chemical to keep the people safe from exposure to the chemical.

Environmental Officer: ensures the chemical is stored properly, measured accurately so that the mixture isn't too weak or strong, and is disposed of correctly. Considers any run off that may occur.

Grounds Person(s): follow the instructions on Waldo's Weedkiller Application Guide to

1. measure and mix the weedkiller accurately
2. apply it as directed with the support of the Safety and Environmental Officers

Your group will be observed for its team work and ability to follow the instructions on the label of Waldo's Weedkiller.

Waldo's Weedkiller Application Guide

Waldo's Weedkiller

Waldo's Weedkiller kills weeds and unwanted grasses in private and public use situations.

How to use: DO NOT treat if rain is likely within 2 hours.
DO NOT DISTURB treated weeds for 7 days after treatment.

WEEDS CONTROLLED	RATE	HOW TO APPLY
General Mixed Weeds Annual and Perennial Weeds	5mL per 1L of water	TIMING: Apply when weeds are actively growing. For best results on perennial weeds treat after flowering. Treat woody leaves from flowering to leaf fall (Jan-May). DO NOT spray plants bearing edible berries. APPLICATION: Uniform and complete spray to wet all leaves. Run off should not occur. 1 litre of spray will cover 10 square metres. The addition of a non-ionic surfactant is recommended at a rate of 1mL of a 600g/L product (or equivalent) per 1L spray solution. Seeding or planting into treated areas may proceed after 7 days.
Woody Weeds	12mL per 1L of water	

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED

HOW TO PREPARE: Mix this product with clean water. Use only plastic lined brass, copper, fiberglass, aluminum, plastic or stainless steel containers for mixing and application. DO NOT mix more than can be used within 5 days. Wash out spray equipment thoroughly after use.

CAUTION: DO NOT allow spray to contact or drift into plants you do not want killed. Accidental contact must be hosed with water immediately to reduce injury to plant. DO NOT allow pets and children to enter treated area until spray has dried. DO NOT allow chemical containers or spray to get into drains, sewers, streams or pond. DO NOT spray directly on humans, pets, exposed food, food preparation areas or food utensils.

STORAGE AND DISPOSAL: Store in the closed original container in a cool, dry place out of reach of children. Do not store in direct sunlight. Dispose of empty container by wrapping in paper, placing in a plastic bag and putting in the garbage.

SAFETY DIRECTIONS: Avoid contact with eyes and skin. Wash hands after use.

FIRST AID: If poisoning occurs, contact a doctor or
Poisons Information Centre Ph: 13 11 26

Indicate the role for which you are responsible:

1

Grounds person

2

Safety officer

3

Environmental officer

Write down three important things you are responsible for in your particular role.

1 _____

2 _____

3 _____

Write in the space below if you need more room.
