

## Administration

### Kakadu Information Display (Scootle)

### Links to: Reading for Key Information

### Activity overview

In this Scootle activity students assist in developing an information display for Kakadu National Park. Information on a range of topics is provided to the students and they read and collate the information into common areas.

### Classroom organisation

Students complete the activity individually, but may benefit from working with a partner.

### Resources

Other

- ☐ Computer with access to the Internet

### URL

<http://www.scootle.edu.au/ec/viewMetadata.action?id=L5813> (spoken instructions)

<http://www.scootle.edu.au/ec/viewMetadata.action?id=L4915> (no spoken instructions)

### Preparation

No prior preparation is required although students will benefit from prior instruction in reading comprehension.

## How to play

1. Begin the activity, and read through the introductory information
2. Once the activity begins, students are presented with twelve pieces of information on Kakadu National Park, randomly spread on a virtual pin board
3. On the right of the screen are spaces underneath four categories of information
4. Students read the information on the pin board by clicking on the magnifying glass icon, and move each piece of information to the relevant category
5. In the next activity, students match a headline to its corresponding information
